

Hudson Reed

Armoire à miroir LED

 Le style peut varier

Guide d'installation

Nous vous recommandons fortement de faire appel à un électricien qualifié pour toute installation électrique. Il est également recommandé que l'installation de ce produit soit effectuée par deux personnes. Assurez-vous que l'alimentation électrique domestique à laquelle est connecté le miroir est éteinte. Connectez l'alimentation électrique domestique conformément au schéma de câblage ci-dessous.

Toutes les installations doivent être conformes aux directives basées sur un concept de zone et doivent être suivies pour garantir une installation sûre des appareils électriques dans la salle de bains. Ces règles s'appliquent uniquement aux installations domestiques. Les installations doivent être réalisées conformément à la réglementation IEE en vigueur et à la réglementation en vigueur en matière de construction. Ce produit est classé IP44 et convient à une installation en ZONE 2 et hors zone.

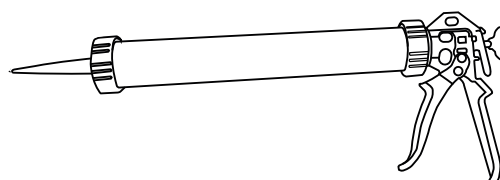

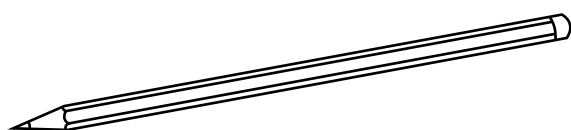

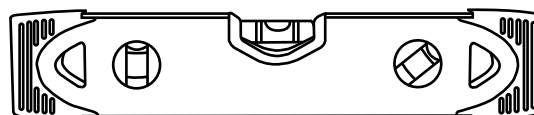

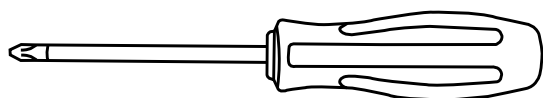

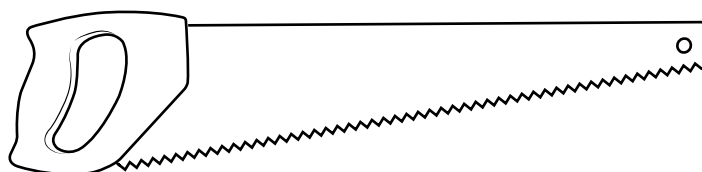

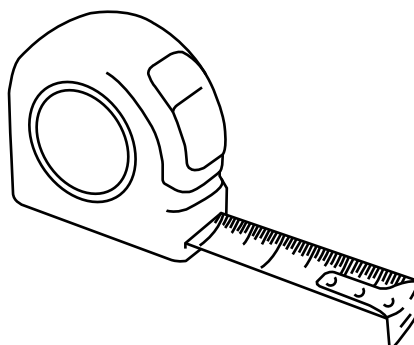

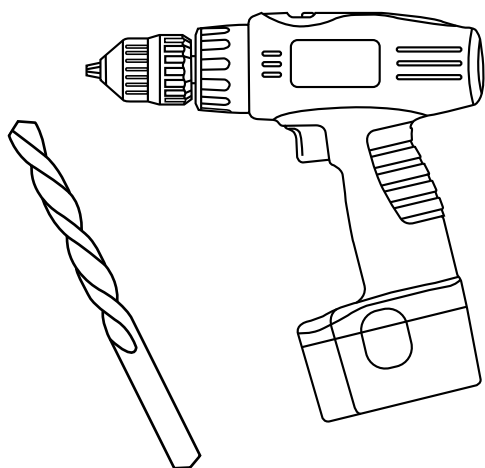

ALIMENTATION PRINCIPALE

A diagram of a three-core cable. It consists of three outer conductors (yellow, green, and blue) and a central shield. The shield is a rectangular block with three circular openings, one for each conductor. The shield is connected to ground on the left side.

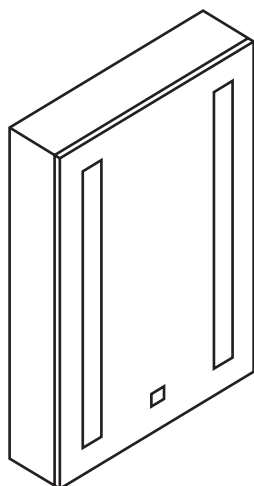

- ALIMENTATION EN COURANT (ROUGE ou MARRON)
- ALIMENTATION EN TERRE (VERTE & JAUNE)
- ALIMENTATION NEUTRE (BLEUE ou NOIRE)
